---

1. Purpose. This regulation sets forth the mission and major functions of each of the IOC active AWRSPTCMD and it's subordinate elements.

2. Mission.

a. Maintain the readiness and accountability of the Army's war

reserve combat, combat support, and combat service support equipment and materiel globally prepositioned; this includes prepositioned sets, operational project stocks, and sustainment stocks.

b. Issue Army Prepositioned Stocks (APS) equipment and materiel when and where required in support of the Army's global power projection mission.

c. Reconstitute APS upon completion of operations.

### 3. Major Functions.

a. Serves as the U.S. Army Materiel Command (AMC) responsible agent for planning, managing, and executing the APS missions worldwide.

b. Establish procedures and execute the receipt, storage, Care of Supplies in Storage (COSIS), loan, issue, inspection, maintenance, and reconstitution of APS materiel on land and afloat.

c. Develop and manage program and resource requirements, allocations, and execution in support of APS mission.

d. Implement/maintain the Department of the Army (DA)/AMC policy guidance and accountability for APS materiel worldwide.

e. Establish, formulate, and coordinate long-range APS strategic operations planning, and procedures in support of the worldwide APS mission to incorporate power projection and global prepositioning strategies.

f. Plan, execute, coordinate, and evaluate reserve component support and overseas deployment training at various APS global mission.

g. Develop necessary plans to maintain/transition accountability of APS assets, providing total asset visibility through input to Army standard automation systems.

h. Maintain accountable records for all materiel via the Army designated standard system(s) and Army War Reserve Deployment System.

i. Provide facilities, personnel, and equipment to accomplish the APS missions of storage, issue, port handling, transportation, maintenance, COSIS, demilitarization, and security.

j. Coordinate with National Inventory Control Points, Service Item Control Centers, and U.S. Army Medical Materiel Agency to fill shortages, acquire replacement materiel, and obtain disposition instructions for excess/unserviceable stocks.

k. Conduct new materiel fielding planning into APS sets through coordination with weapon system proponents throughout DA.

l. In accordance with AR 220-1, review and validate unit status reporting of APS readiness. Coordinate get-well plans with the Combat Equipment Groups (CEG) for equipment serviceability. Establish/implement/execute fill of all shortages to approved Modification Table of Organization and Equipments and operational projects/sustainment

authorizations.

m. Establish inventory and maintain quality assurance programs to assure stocks are safeguarded, accounted for, inspected/upgraded, and preserved/packaged properly.

n. Integrates/tracks/reports modification work order (MWO) programs for the AWRSPTCMD. Maintain applicable MWOs for APS and ensure their application through the CEGs.

o. Coordinate with DA/AMC for the release of APS to support contingency operations to include receipt, configure, preserve, store, maintain, issue, loan, and reconstitute.

p. Plan and execute the redistribution of APS.

q. Perform direct support level maintenance and limited general support maintenance on prepositioned equipment to include preservation and processing for storage IAW TM 38-450/470.

r. Direct Government and contractor-performed functions to accomplish overall APS mission.

s. Develop detailed issue/loan and reconstruction plans for exercises and contingencies in which APS equipment is utilized by the war fighter.

t. Perform Reception, Staging, Onward Movement and Integration contingency support planning.

u. Plan and develop operational orders for redistribution, loan, or issuance of APS equipment.

v. Based on readiness impacts, plan/direct/execute annual maintenance workload.

w. Develop necessary statements of work for contractor operations in support of the APS mission.

x. Coordinate with DA/AMC and other proponents on operational projects equipment authorizations.

y. Maintain/report/track all equipment on temporary loan from APS records.

z. Coordinate necessary Modification Table of Organization and Equipment (MTOE) changes with AMC/DA/U.S. Army Force Modernization Support Activity.

aa. Direct all logistics execution actions to achieve mission requirements.

ab. Coordinate/direct the movement of equipment to satisfy equipment shortages across all elements of APS.

ac. Plan execute overall logistics operations to include maintenance, transload, force structure load plan, and coordination

with Major Subordinate Command/Military Traffic Management Command operations in support of APS-3 Afloat prepositioned program.

ad. Perform all levels of maintenance to include depot level rebuild, on U.S. Army watercraft, associated equipment and materiel handling equipment, in support of the prepositioned afloat program.

ae. Receive, inspect, classify, store, maintain, inventory, issue, and rotate watercraft, equipment, and stocks in support of the prepositioned afloat program.

af. Plans and directs the multi-year APS-3 ship transloads.

4. Relationships. The AWRSPTCMD is under the command jurisdiction of the Commanding General, IOC. The Commanding General, AWRSPTCMD is assigned responsibility and delegated authority to exercise command jurisdiction over subordinates in accordance with the mission assigned. Administrative and logistical support is provided and received IAW agreements negotiated between AWRSPTCMD, and other Government services/activities.

#### 5. Materiel Assignments.

a. The AWRSPTCMD is the DA/AMC responsible agent of APS, Army Prepositioned Stock-Sustainment, and Army Prepositioned Stock-Operational Projects, along with Prepositioning of Materiel Configured to Unit Sets (POMCUS) materiel. The AWRSPTCMD is responsible for planning, organizing, directing, coordinating, and controlling multiple functions relating to the maintenance and readiness of these stocks.

b. Sets, kits, outfits; special tools; tool sets; and test, measurement, and diagnostic equipment which are part of, or used with assigned items.

c. Other equipment/materiel assigned.
